Helping You Be First to Craigslist Deals

Craigslist is a wildly inefficient market, and many Craigslist users don't have a clue about the fair market value of items listed.. Craigslist is also easy and convenient to use, allowing you to search for items by location.

When making a sale, always stick to your listed price for a few days before entertaining lower offers.. You are about to be shown exactly what methods to use for pulling in profits using Craigslist and how to use them! Despite what most people think, it's not hard to make money online.. This gives you more negotiating power and allows you to mention the items inability to sell at the initial price point.. It's a crazy market Subjective pricing is the essence of Craigslist, so you need to know the value of your items before getting started.
